

# FY 2026 Goals – Senior Data Analyst

## City National Bank

### 1. Delivery Management

**Goal:** Support the execution of the DEO data analysis roadmap by maintaining accurate inventories, adopting data profiling, and simplifying impact analysis activities.

**Measures:**

- Maintain an up-to-date inventory of CD2/Datahub tables, views, and related data assets
- Perform data profiling as part of standard data analysis activities
- Follow standardized templates for impact analysis, lineage, and related documentation
- Publish required monthly metrics within established timelines

**Stretch:** Identify opportunities to streamline or automate parts of the impact analysis process where feasible.

### 2. Risk Management

**Goal:** Ensure data analysis documentation, standards, and best practices are followed to support risk management and regulatory requirements.

**Measures:**

- Create and maintain data analysis artifacts using DEO standard templates
- Review documentation, standards, and best practices with relevant stakeholders
- Maintain data analysis artifacts in approved repositories
- Complete all mandatory compliance and governance trainings on time

**Stretch:** Improve consistency and reuse of documentation and standards across initiatives.

### 3. Developmental

**Goal:** Continue to develop technical and platform knowledge to support analytics, governance, and data analysis initiatives.

**Measures:**

- Build end-to-end understanding of the Snowflake platform and its core capabilities
- Learn and apply Snowflake data profiling and data lineage features where applicable
- Stay current with relevant Snowflake feature enhancements
- Prepare for and complete the SnowPro certification

**Stretch:** Apply newly learned Snowflake features to improve efficiency or governance support where appropriate.
